DETAILED ACTION

1. The indicated allowability of claims 34,35,66-69,73 is withdrawn in view of the newly discovered reference(s) to an illuminable computer system housing. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

4. Mueller discloses a light source (figs 1,2) disposed inside the housing (10) the light source being configured to generate light the light source not being the display and a light controller (400) operatively coupled to the light source the light source controller being configured to control the light source so as to illuminate at least apportion o the light passing wall of the housing with the light generated by the housing with the light generated by the light source the light source being dedicated to illuminating the light passing wall(col. 8 lines 21-59); a computing device comprising an enclosure having an illuminable wall in optical communication with a light source disposed inside the enclosure and a control means for varying a characteristic or attribute of the light generated by the light source the illuminable wall and the light source working together

Art Unit: 2875

to emit a characteristic glow(a single uniform frequency of light) at a peripheral portion of the enclosure (col. 8 lines 6-33); the enclosure (10) defines an outer peripheral wall of the computing device, the illuminable wall is formed of a translucent material (col. 8 lines 30-33), the wall includes a light directing element configured to scatter light from the light source the scattering light helping toe form a characteristic glow (diffuser, col. 8 lines 30-33); the characteristic glows is formed at an outer surface of the illuminable wall (light is transmitted through wall/diffuser including the outer surface)

Allowable Subject Matter

5. Claims 1,4-11,13-20,22-31,36-51,56-65 are allowed.
6. Claims 70-72,74,76 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. The following is a statement of reasons for the indication of allowable subject matter: The reasons can be found in the previous office actions.
